

The background features a dark teal color with a central, bright, circular light flare. Radiating from this center are numerous thin, curved lines in shades of lime green and orange-red, creating a sense of motion and energy. The overall aesthetic is modern and digital.

MOVING THE CITIES 2024

Konzept

Moving the Cities ist ein zweiwöchiges, teambasiertes Projekt mit internationalen Studierenden, die sich in einem Design Thinking Sprint mit aktuellen Herausforderungen ihrer Städte, Regionen oder Ökosysteme auseinandersetzen.

FEEDBACK

I am so happy to share that I got a once in a lifetime opportunity. We have not only learned to work and communicate with people from different cultural and disciplinary background but also created new friendships.

Sofiia Kuchumova
Student at FH Münster
in International Marketing & Sales

Lenon Cisco
Student at UNISINOS
in Mechanical Engineering

The learning and cultural exchanges that took place throughout the event will always accompany me. The complete immersion of several minds united thinking about a world where cities are thought for everyone, in a human and sustainable way.

I'm incredibly grateful for the opportunity to develop my innovative and design thinking skills, work with students from all over the world, and of course practice my Spanish and Portuguese skills!

Tasha Klatt
Student at University of Minnesota
in Marketing

Antonia Wiggers
Student at FH Münster
in International Marketing & Sales

It was exactly the hands-on experience that I was aiming for. I have certainly stepped out of my comfort zone and have grown further, intellectually and personally.

I take with me an unforgettable experience, new lifelong friends, as well as a new tool set of skills including but not limited to: critical thinking, leadership, communication, and working with interdisciplinary co-workers with language and cultural barriers.

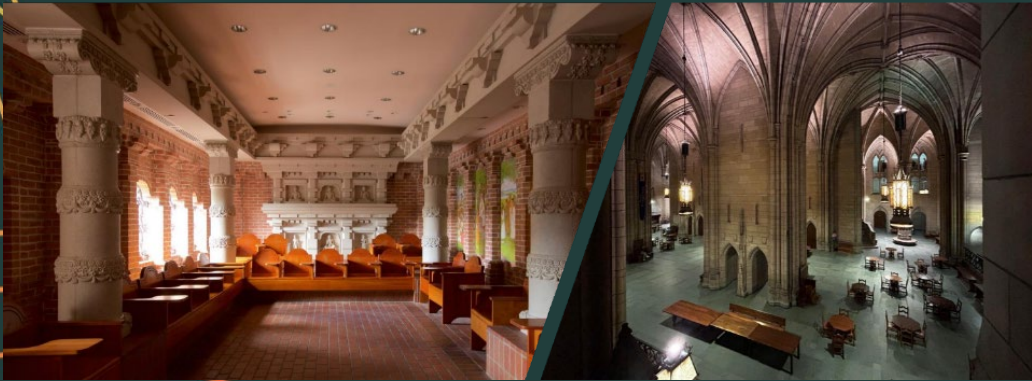

Roshen Abdullah
Student at University of Pittsburgh
in Mechanical Engineering

MOVING THE CITIES 2024: PITTSBURGH
